was sold for \$1.80. The average value of the fleece is one dollar. These are hard facts and highly encouraging.

Sheep raising is manifested very profitable.

The people of Castrolville, Texas, freely talked the other day about tarring and feathering a Dr. Waggoner, their county physician.

The Sheriff had shot a Mexican horse thief, and wounded him so badly the doctor cut his leg off.

He threw the leg into a pen of hogs, where it was found nearly devoured, and that plan of fattening hogs on the leg of a Mexican horse thief was seriously objected to.

Interesting figures from the Memphis Avalanche: It is worth while for men ambitious for public honors to remember that the present debt of Tennessee is \$20 to every man and woman and child in the State. To pay the debt of the city of Memphis it will be necessary for every man, woman and child to contribute \$120. To pay the Federal debt it will take \$41 more from every child, woman and man in the Union. The total assessment is \$181.

A severe wind and rain storm passed over a section of Tennessee Tuesday night, doing great injury to buildings, trees and fences in and around Nashville and the surrounding country.

The Cumberland River rose rapidly and great apprehensions of a disastrous freshet are felt. The track of the storm was one and a half miles in width. The damages along the line of the Nashville and Chattanooga road was very great. Trees were leveled, houses were blown away and the wheat crop was greatly injured in some sections.

The storm extended to Georgia and West Virginia. In Georgia several persons had their limbs broken, and horses and mules were killed by falling timbers. In West Virginia one man was killed and five were injured seriously. The roof of houses were blown off and great injury to property resulted. The storm extended to Ohio, where the damage was very great.

THE ANGOLA CANAL.

In Onslow, Duplin and Pender counties lies a swamp known as "Angola Bay."

It is a swamp of the same general character as those in other parts of eastern North Carolina, except that it has, according to the Report of the Geological Survey of North Carolina, a rather large proportion of barren soil covered with brambles, gall berries, bay and stunted pines. Its area is about 150 square miles, inclusive of "Holly Shelter."

On the margin of this swamp are some fine heavily timbered white oak flats. With a view of draining this swamp, the Legislature of 1876-77 passed an act to cut a canal through it. This undeveloped project is, in common parlance, known as the "Angola Canal."

Well, the Wilmington Review of a late issue, contained the following:

"THE ANGOLA CANAL."

Inquiries are coming in from Duplin and Pender, as to the cause of the delay in beginning operations upon this State work. The last Legislature ordered thirty convicts to be sent down to dig the canal. Governor Vance has during the last winter repeatedly assured the people of this section that the convicts should be furnished upon the opening of spring. Two months of beautiful spring have nearly passed, and yet no convicts have arrived. The people of the counties named are becoming impatient at the delay. The enterprise is important, as we have often shown. It promises much good to Onslow and Duplin, and will share largely in the benefits. We appeal to the Governor to have the work completed and vigorously prosecuted."

It is here broadly intimated that Gov. Vance has been negligent in this matter. "Two months of beautiful spring have passed, and yet no convicts have arrived." Has Governor Vance failed in the performance of his duty? Is he in any way responsible for the delay in beginning operations upon this important State work? Let us see. The following is the Act of Assembly, authorizing the project:

AN ACT TO CANAL ANGOLOA BAY.

WHEREAS, There is a large quantity of valuable swamp lands in the Eastern part of the State, belonging to the Board of Education, that is now unsalable and consequently of no value to the Board, which, if drained, would be ready to sell for a fair price and thus add largely to the available funds of said Board of Education. Therefore,

SECTION 1. The General Assembly of North Carolina do enact: That the authorities of the Penitentiary detail thirty convicts under proper officers and guard to cut a canal from Crook's Bridge across North River, through Angola Bay the most direct and practical route to the Duplin or Pender county line of sufficient width and depth to take off the surface and overflow water, and to construct along said canal a public road of the width of other public roads for the convenient passage of travelers on foot, in carriages, wagons and other vehicles.

SEC. 2. That this act shall be in force from and after its ratification.

Ratified the 9th day of March, A. D. 1877.

It will be seen from this act that the Governor has nothing to do with the matter. It is not within the scope of his official duties to inaugurate the work, or to push it to completion should it be on started. Yet, feeling a lively interest in this project, as he does in every other that concerns the good of North Carolina, Governor Vance has again and again requested "the Penitentiary authorities," as designated in the mandatory part of the act above set forth, to send the thirty convicts as soon as practicable. The responsibility of the convicts not being sent, rests, then, entirely with the Penitentiary Board. Is that body justified for their non-action in the premises? Let us see.

The act, it will be observed, contains no provision for a survey; and it must be well known to every one familiar with such matters, that work on a canal cannot begin until a survey of the route to be followed is made, and that no survey can be made until a civil engineer is employed. If any engineer has been employed, or any survey made by anybody, for the purpose mentioned in this act, we do not know it.

The act lays down no precise route, but simply says "most direct and practical" route, to "either the Pender or Duplin county line." Who is to determine the route? Who is to show the convicts where to go, how deep to cut, &c.? In brief, who is to superintend or conduct the enterprise? There is no organized body, or authority of any kind, to receive convicts or do anything whatever. To whom then would

the Penitentiary authorities send the hands?

Again there is no appropriation for tools and appliances either in the act cited or in any other act. And if the Penitentiary Board had the money there is no law permitting them to use it for anything but the support of the convicts, for guarding, transportation, &c.

In further justification of the Penitentiary authorities, we cite the following resolutions passed by the Board of Directors at their meeting on the 11th inst:

Resolved, that the Warden be authorized to detail a force of thirty convicts with a sufficient guard, and send them to Crook's Bridge or that vicinity after constructing necessary quarters and stockades, for the purpose of cutting a canal through Angola Bay, the most direct and practical route to the Duplin or Pender county line of sufficient width and depth to take off the surface and overflow water, and to construct along said canal a public road for the passage of travelers on foot, in carriages, wagons and other vehicles.

Provided, that persons or the countries interested in the construction of said canal shall employ and pay a civil engineer who is an expert in cutting canals and put him in charge of the duty of laying out the route of said canal and cutting the same and building said public road.

By direction of the Board, the Warden furnished copies of this resolution to the Chairman of the Board of County Commissioners of Pender and Duplin counties, and to Hon. John D. Stanford, State Senator, accompanying the same with the following letter:

RALEIGH, N. C., April 16, 1878.

DEAR SIR:—Enclosed please find a copy of a resolution passed by the Board of Directors of this institution at their last meeting, which will explain itself.

You will please notify me when you have made the necessary arrangements and are ready to have the men placed on the work, and in the meanwhile please inform me at what point it will be most advantageous and desirable to erect the quarters; whether the whole work can be performed from one set of quarters, or will it be necessary that they shall be moved; if so, how often?

What will be the most economical material in that section to be used for constructing the shanties, and what will it cost delivered on the ground? Are there any buildings near by where we should make the camp that can be had temporarily while we are building? If so, please state what buildings there are, their dimensions, and on what terms they can be had per month; also how long we should hold the same, and an early reply will be highly appreciated.

Yours, very respectfully,

W. J. HICKS, Architect and Engineer.

To this communication no reply has been received. What then can the Penitentiary Board do? The hands are ready, and have been for some weeks; anybody would receive them. That they have not complied with the act is no fault of theirs. Nor is Governor Vance in any way, shape or form, responsible for the delay. The trouble lies in the defective nature of the act itself; and we see no hope for the Angola Bay project until further legislation is procured in its behalf.

The Florida revelations continue to be the ruling political sensation of the day. The confessions go to make cumulative the evidence of the frauds by which the electoral vote of the "Flowery State" was stolen for Mr. Hayes.

The exhaustive reports made by correspondents and Democratic committees, in the winter of 1876-77, convicted all intelligent men of the realities now confessed to by Judge McLean and others implicated. The active, vigilant democratic and independent press long tried and convicted the members of the Florida Returning Board. So, these confessions do not surprise or startle the country. What the effect of the disclosures, which remove all doubt from the minds of everybody of the perpetration of the frauds, will be, cannot be clearly foretold. They may lead to Congressional investigation, so as to place the frauds fully and undeniably before the country for future use and reference; but, in view of the expressions of the members of Congress recently published in these columns, it is hardly probable that any action, Congressional or otherwise, will be taken to unseat the present occupant of the White House.

The Senate bill to repeal the Bankruptcy law, heretofore set out in full in these columns, was passed by the House on the 25th. The bill as passed provides for the absolute repeal of the Bankruptcy act, and all supplementary and explanatory acts, the amendments made by the House being added to perfect the Senate bill. It was discovered that the Senate bill failed to provide for the repeal of certain sections of the Revised Statutes on bankruptcy which were enacted in 1875, and the House supply this omission.

The involuntary and voluntary features go into effect at once, instead of on July 1 and January 1, as the Judiciary Committee proposed. There can be no proceedings in bankruptcy begun after the President signs the bill. Pending cases are of course not disturbed. The bill was passed by an overwhelming majority.

THE General Conference of the Methodist Episcopal Church South will convene in Atlanta on Wednesday, the 1st of May. Full reports of the meeting will appear in the News, by telegraph and mail.

The failures, bankruptcies, &c., reported this morning are unusually large. The imminent repeal of the Bankruptcy Law is probably the cause of it.

THERE is no "Federalism" among the gentlemen mentioned prominently for the Supreme Bench. Uneasiness, therefore, on this score, is unfounded.

A lawyer in a Keokuk court room disagreed with his colleagues as to the management of a case. He stood up, and had an officer to bring him a glass of water, and then, with much dignity, washed his hands, saying, "Your Honor will please bear witness that I wash my hands of this affair."

Notice to Subscribers.
 Each subscriber will see plainly printed on the yellow label, on which his name is printed, the date when his subscription will expire. Subscribers desiring to renew will do so in time and avoid losing any copy of their paper. Any subscriber failing to receive a copy of his paper will go for a favor by notifying the office.

The Beautiful in Nature.
 I thank God for this good, green earth, for every fair and pleasant thing that smiles upon the modest birth of every dew-drop and the first green leaf. I thank God for the little birds, that come to rest on the leafy boughs, and sing their sweet songs to the sun and the wind. I thank Him for the little stream, that murmurs sweetly as it flows, and tumbles "neath the golden beam that on its crystal surface gleams. I thank Him for the gentle breeze, that comes from over the hills and valleys, and wafts the fragrance of the flowers to our nostrils. I thank Him for the lovely face of Nature, for the works of art, that are everywhere to be seen, and that make the world so beautiful and so full of interest.

GENERAL NOTES.
 A lawsuit about \$60 worth of calves cost Jones county, Iowa, \$2,000.
 London is to have a new bridge over the Thames to cost something like \$10,000,000.
 Socialism is making rapid strides in Germany. Nearly one-tenth of all the votes cast in 1877 were Socialistic.
 Mrs. Dr. Mary Walker, who is dying at Washington, is forty-eight years old. Worry and annoyance have worn her out.
 It is said that 150 communications of sentence of French prisoners at New Caledonia are about to be submitted to the President of the Republic, for signature.

The German Government has appointed a commission of four gentlemen, of the highest distinction, to visit the different institutions for professional education throughout France.
 The Carlist General Boet, aged 36 years, has been arrested for the theft of the necklace, "Lionel d'Or," from Don Carlos, who had been wearing it, and was private secretary. Twenty-seven diamonds, estimated to be worth 1,000 francs, had been abstracted from the necklace. The total value of the necklace is said to be \$50,000 francs.
 The newspapers printed in Mexico have neither local nor telegraph news to speak of, but are ponderous in the way of "leader" and literary lore. The absence of local news is a distressing feature. You can scan their pages in vain for accounts of fires, murders, public meetings, reviews of troops, political meetings, court reports, or any other events which with us go to make up the local columns.
 E. B. Alter obtained a divorce from his wife in La Crosse, Wis., and was awarded by the court the custody of their little girl, Mrs. Alter had the child, and was committed to prison for contempt, the Judge saying that she would not be released until she obeyed his order. She declares that she will endure imprisonment for life rather than give up the child, and her acquaintances say that she is a woman of her word.
 Of Governor Briggs, of Massachusetts, it is remembered that for several years before his death he never wore a collar, appearing thus undressed at his levees and on all public occasions. Few men knew the strange reason for this. He had a neighbor who he liked exceedingly and who was on the way to come a confirmed drunkard. With this man the Governor remonstrated warmly, until at last the listener answered: "I will never be again, or money refund." "Agreed," said the Governor. Each kept his word; the man was saved, and the Governor paid no manner of attention to the sometimes sharp criticism upon his apparent carelessness in his dress.
 "A Scotchman" sends some remarkable information to the *London Globe*. He says, upon the strength of a private letter which had been placed in his possession, that the Russian authorities have a plan of destroying the English ships by the use of 1,000 tons of crude petroleum. This is to be allowed to float on the surface of the water, and be carried down with the current at the time when the English ironclads are midway in the Straits. The oil being then ignited, the whole length and breadth of the Bosphorus Narrows would be converted into a sea of fire, destroying the crews, and leaving the ironclads to be captured at leisure. The whole expenditure would amount to only about \$30,000. Such is the plan which the "Scotchman" professes to have discovered.
 When Mr. Anthony Trollope was a very young man he applied for advice to a distinguished person and asked how he might best "succeed in literature." The reply was characteristic: "Fix yourself to your chair with a bid of tobacco's wax"—in other words, "stick to work." The advice so given was earnestly taken. From that time to this Mr. Trollope has done his regular quantum of work daily. His minimum is so many thousand words, and no matter where he is—in England or in the antipodes, on land or shipboard, in house or tent—the minimum is reached. But hard work and no play would make Anthony a dull boy, and Mr. Trollope is never dull. His writing is always done before luncheon; his afternoons and evenings are entirely free. A sportsman at heart as a novelist, he loves to gallop across country and greatly enjoys all outdoor sports and indoor games. Curiously enough he can't read novels, and prefers the driest work on statistics to the fiction of the circulating library. Mr. Trollope does not believe in inspiration. He maintains that the brain is a machine, which can be made to perform its work systematically, and at all seasons, provided proper attention is paid to bodily health.

DRY GOODS.

Grand Display.

1876. SPRING & SUMMER. 1876.

We have a low open and for sale the largest and handsomest stock of seasonable goods we have ever offered.
 Every department in our House is filled with the newest and most desirable goods, and our prices will be found as low as the lowest.
 Our Dress Goods Department is loaded with the latest styles and fashions, including
 PLAIN, STRIPED AND CHECKED SILKS.
 Printed French Cambrays in 124 cents, lower than ever sold.
 White Cambric, equal in quality with Lonsdale, at 54 and 10 cents per yard.
 10 cases Spring Calico, all the new styles.
 20 000 yards 1 1/2 inch wide domestic.
 50 000 yards Bleached Domestic.
 5 cases Cottonades.
 100 cases Hosiery and Shoes.
 Goods for Men's and Boy's wear, of every description.
 Ladies' Misses' and Children's Hosiery, of every quality and price.
 Large stock of Gent's 1/4 Hose, including all the new styles in fancy colors.
 50 pieces Hamburg and Nainsook Edgings and Insertions.
 A large variety of Kid Gloves in opera and medium shades, from 50 cents up.
 Merchants can buy of us at prices to compare with Northern jobbers.
 We extend an invitation to all to call and examine our goods.

FETTY & JONES.
 For the "Benefit of our Gentlemen Friends."
 (Having previously advertised our purchases for the Ladies) we make the following announcement:
 Men's Hand and Machine sewed Gaiters of the best makes, from first class manufacturers, and all the different styles and quantities of shoes at reduced prices.
 Boys' FINE SHOES, a better stock of shoes for Boys, seldom to be found.
 Gent's Undershirts, Linen fronts at 6c, 7c, and 10c.
 Gent's Laundered Shirts, Linen fronts at 7c, 8c, 9c, and 10c, the best Shirts for the money ever sold.
 Gent's Bleached Jeans Drawers from 65c. to \$1.00.
 Linen Collars, new styles and all numbers.
 Gent's Linen Cuffs 3 ply at 25c. a pair.
 A full line of Neckties, Bows and Neck wear generally.
 Neckties for old Gentlemen.
 Gent's 1/4 Hose, Fancy and Striped at all prices.
 Gent's 1/4 Hose, white, from 4 pr. for 25c. to 75c. a pair.
 Gent's Gauze Undershirts from 25c. to 1 50.
 Kid Gloves in all shades and sizes.
 A full line of Gent's Linen H'dkfs from 10c. to 75c., white and colored.
 Linen, Cottonades, Linen Drills, Fancy Linens, Cottonades, etc.
 Gent's Hats, the best assortment ever brought to the City and we may say in the State in Silk, Felt, Fur, Wool, Straw, Canton, Chip, Mackinaw, colored and fancy, etc.
 We call special attention to our new style Manilla hats for cool summer wear.
 Umbrellas, Valises, Trunks, &c.
 Call in at "Tucker's" before you buy to compare prices with this the Cheapest House in the state.

 As thousands will testify. Purely Vegetable. Price 75c. Sold by all Druggists in Raleigh, N. C. PURCELL, LADD & CO., R. W. POWERS & CO., apr 6-dawly Ag'ts, Richmond, Va.

LEE'S PREPARED AGRICULTURAL LIME.
 To The Cotton Growers of North Carolina.
 The Commissioner of Agriculture having decided that I cannot have an Agency in your State for the sale of this cheap and valuable fertilizer, without paying a tax of \$50,000 which I cannot do without materially advancing the price, I solicit your orders for it, which will be promptly filled on the following terms on board cars in Richmond:
 \$12 Per Ton Cash, or \$15 Per Ton for an approved acceptance on Raleigh, Charlotte, Wilmington, Petersburg, Norfolk, or Richmond, payable on the 1st of November next, or at 5 months from date.
 I respectfully refer you to Messrs. J. J. Thomas, Ed. J. O'Neil, Clayton J. Jones, others who sold it last spring, and to the various farmers who used it, and who say it makes as much cotton as fertilizers costing 3 or 4 times as much. Address
 L. E. LEE, 108, VI. Plaza Street, Richmond, Va.
